

Automate Your Scorecard With QuickScore™

- All Web Development & Deployment
- Live Data, Any Location, Any Browser
- Strategic Performance Visualization and Alignment
- Fully Integrated with the Balanced Scorecard Institute's Nine Steps to Success® Framework

Introducing QuickScore™

The Balanced Scorecard Institute is proud to announce the software automation of the Nine Steps to Success® balanced scorecard framework. The new software solution, QuickScore™, is an easy to use, web-based balanced scorecard automation solution that allows an organization to quickly see results from their balanced scorecard investment.

Balanced Scorecard Institute *Nine Steps to Success™* Planning and Management System

Powered by the latest cutting edge web technologies, QuickScore™ gives you real-time access to the data you need when you need it. QuickScore™ transforms static performance measurement data into information and business intelligence. QuickScore™ automates the balanced scorecard development process, Strategy Maps, and performance metric

spreadsheets to transform data into management information that allows users to visualize performance in a way that helps improve decision making. Charts, graphs, dashboards, and PowerPoint™ exporting are features of the new software.

The Institute's award-winning framework, Nine Steps to Success®, is a disciplined, practical approach to developing a strategic planning and management system based on the balanced scorecard. Automation adds structure and discipline to implementing the Balanced Scorecard system, helps transform disparate corporate data into information and knowledge, and helps communicate performance information internally to employees and externally to other interested stakeholders. In short, automation helps people make better decisions by offering quick access to actual performance information and business intelligence.
